

PROFESSIONAL ROOM SCAFFOLDS

CERTAINTY AT HEIGHT

Euro Scaffold room scaffolds are professional rolling towers that are used to facilitate efficiency and safety while working at height.

Room scaffolds are assembled in one piece which makes them quick and easy to set up.

Made of durable aluminium, they are suitable for both indoor and outdoor use. Room scaffolds offer the advantage of being well-suited for small spaces, e.g. rooms, gardens and narrow alleys.

PROFESSIONAL ROOM SCAFFOLDS

BENEFITS:

- Easy to set up
- Compact when collapsed for storage
- Made of high-grade aluminium
- Suitable for both indoor and outdoor use
- Can be extended for increased working height

PARTS & ACCESSORIES

- **Extension:** increase the working height with additional assembly frames, braces and platform floors.
- **Platforms:** add additional floors with or without a hatch and/or with a concrete plywood or lightweight carbon floor.
- **UNIQUE!** **Footboard:** use the footboard to enter the room scaffold easily and safely.
- **Garden wheels:** use a garden wheel set to turn the room scaffold into a garden scaffold. The wheels run smoothly on irregular unpaved surfaces.

CERTIFICATES

- NEN-EN 1004 class 3 standard
- EN 1298 standard
- TÜV-certificate

INSPECTION

When used in a professional setting, the Arboret [Dutch Working Conditions Legislation] requires room scaffolds to undergo annual inspection. For private use, these inspections are recommended rather than mandatory. You can have your room scaffold inspected by one of our in-house certified inspectors. We can conduct the inspection on-site or at our Euro Scaffold factory. For instructions on how to install Euro Scaffold room scaffolds, please refer to euro Scaffold.com/handleidingen.

ABOUT EUROSCAFFOLD

Euro Scaffold has been manufacturing aluminium climbing equipment and safety products such as (mobile) scaffolds, scaffolding trailers, stairs and ladders for over a decade. Euro Scaffold originated in the Zaanstreek area and has always remained loyal to its roots even after experiencing tremendous growth and development. Euro Scaffold possesses around 10.000 m² of production and distribution space and a spacious showroom with all climbing equipment in stock. In consultation, we also offer custom work such as fixed ladders and eave protection.
